Bauhinia ~ The Butterfly Tree

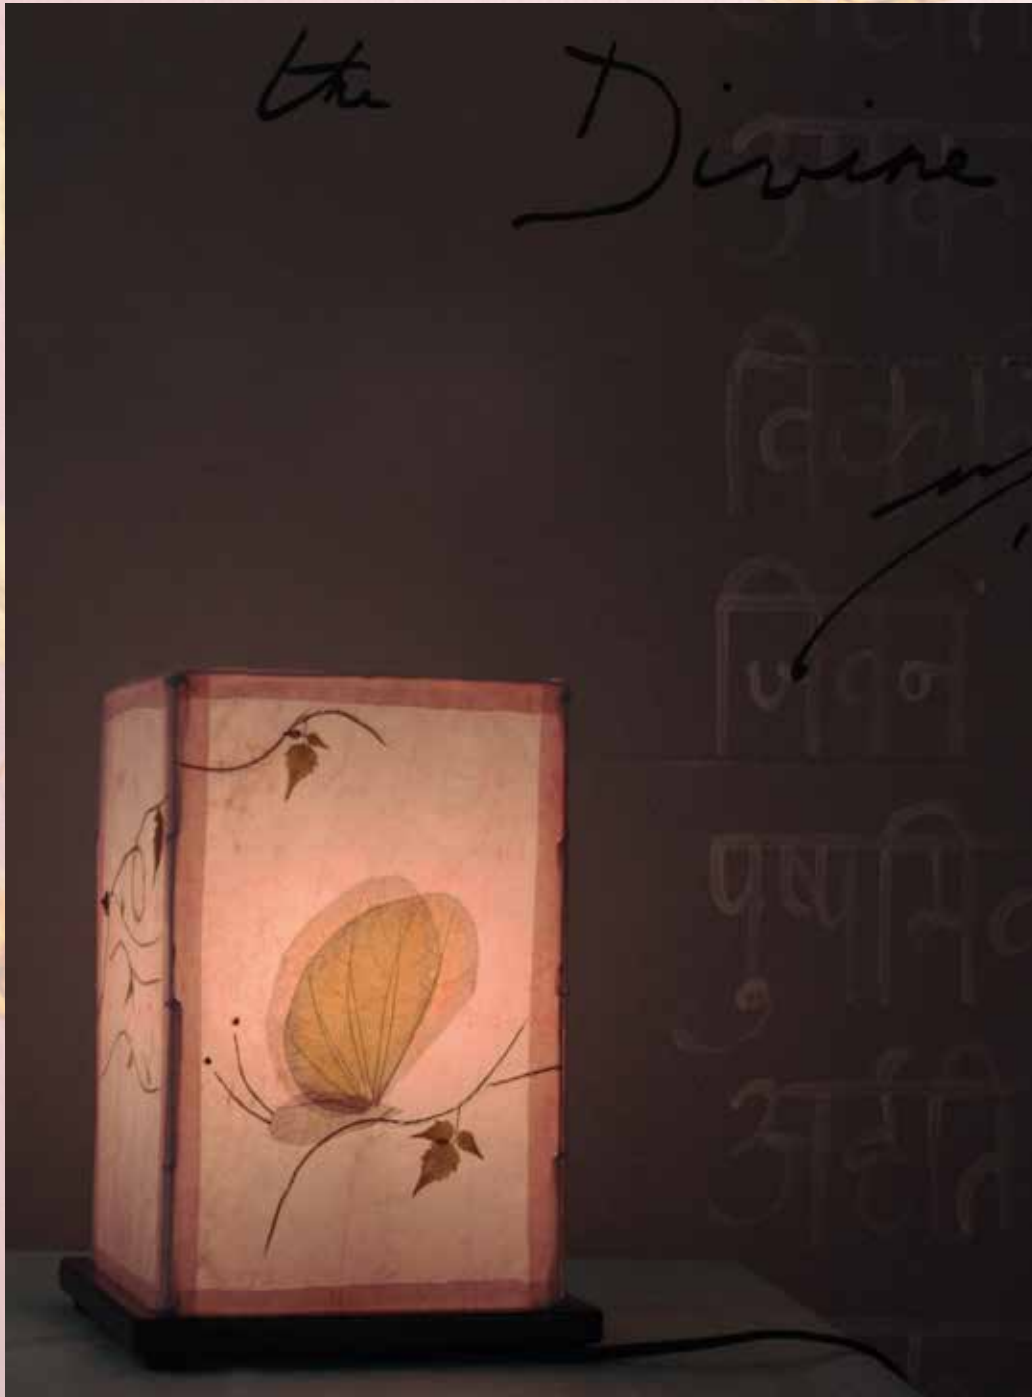

This summer, Shradhanjali brings to you the Bauhinia or the Butterfly Tree Collection.

The *Bauhinia purpurea* is a beautiful flowering tree with characteristic butterfly-like leaves.

Inspired by its beautiful shape, we have hand painting the skeletonized, delicate veined leaves.

Using hand dyed glassine paper and ofcourse, pressed flowers from our garden, here is a whiff of summer in soft, pastel shades.

The lampshades are a beautiful accessory for any space, lit or unlit.

When the light is turned on, each and every vein of these diaphanous baublia leaves is enhanced, with the colored paper adding its own tint to the butterfly wings.

Available as hanging lampshades in small and square sizes as well as this table model (on the left), the three colors evoke different moods.

Give tea time a touch of pastel with this light, airy, Butterfly tree table ware collection;

Available in long and medium tray sizes, with matching coasters.

The Fish and Lilypond Series

This frolicsome collection captures the playfulness of a lilypond; the swimming fish, the jumping frogs, the floating turtle and the flying, teasing dragonflies.

Take home your own fishpond, available in four sizes as hanging lampshades , and a small table model.

The series also includes greeting cards, inspired by the childhood fascination of fishponds and aquariums.
